# Medical Services Agreement

\_\_\_\_\_(PATIENT) and MD Wellness (Dr. Michael E Rothman.) hereby enter into this agreement for provision of medical services specified herein ("Services"). Wherefore, in exchange for consideration, the receipt and sufficiency of which the parties hereby acknowledge, the, PATIENT and PHYSICIAN agree as follows:

1. The PATIENT agrees not to submit a health insurance claim (or request the PHYSICIAN to submit a claim on PATIENT'S behalf) under the Social Security Act (MEDICARE) for the services, even if you may think that such services are or maybe otherwise covered under health insurance or MEDICARE.
2. **The PATIENT agrees to be responsible for the SERVICES.** Although medical marijuana is medically beneficial, insurance companies have not yet accepted this position. At this point in time, neither insurance companies nor MEDICARE will reimburse for preventive care or medical marijuana. As a result of this, medical records will not be provided to any insurance company or MEDICARE. The United States Department of Health and Human Services, Office of Inspector General takes the position that a PHYSICIAN who orders "medically unnecessary" tests may be subject to civil penalties. Because of this, it is the policy of this office not to fill out any insurance benefit claim forms or provide a letter of medical necessity. The Health Insurance and Reform Act of 1997 allows the Federal Government to investigate what they may determine is "health insurance fraud" or any medical treatment not deemed "medically necessary" by the Federal Government.
3. The PATIENT acknowledges that health insurance companies or "Medigap plans" (42 U.S.C., section 1882) will not provide reimbursement, for the SERVICES and that no fee limits (including those specified in 42 U.S.C., Section 1395a",'- 1848g) will apply to the amounts PHYSICIANS charge for their SERVICES.
4. The PATIENT acknowledges that PATIENT has the right to have services provided by other PHYSICIANS for whom payment may be made under health insurance plans or MEDICARE.
5. Our **INVOICE** contains pertinent information regarding your office services and purchases. This form was generated for your personal records only although; patients have submitted it to their insurance company with a claim form for reimbursement. **This frequently causes subsequent inquiries by the insurance company to which we do not respond.**

### ***Risks of using e-mail***

The physician offers patients the opportunity to communicate by e-mail. Transmitting patient information poses several risks of which the patient should be aware. The patient should not agree to communicate with the physician via e-mail without understanding and accepting these risks. The risks include, but are not limited to, the following:

- The privacy and security of e-mail communication cannot be guaranteed.
- Employers and online services may have a legal right to inspect and keep emails that pass through their system.
- E-mail is easier to falsify than handwritten or signed hard copies. In addition, it is impossible to verify the true identity of the sender, or to ensure that only the recipient can read the e-mail once it has been sent.
- E-mails can introduce viruses into a computer system, and potentially damage or disrupt the computer.
- E-mail can be forwarded, intercepted, circulated, stored or even changed without the knowledge or permission of the physician or the patient. E-mail senders can easily misaddress an e-mail, resulting in it being sent to many unintended and unknown recipients.
- E-mail is indelible. Even after the sender and recipient have deleted their copies of the e-mail, back-up copies may exist on a computer or in cyberspace.
- Use of e-mail to discuss sensitive information can increase the risk of such information being disclosed to third parties.
- E-mail can be used as evidence in court.
- The physician uses encryption software as a security mechanism for e-mail communications.

### ***Conditions of using e-mail***

The physician will use reasonable means to protect the security and confidentiality of email information sent and received. However, because of the risks outlined above, the physician cannot guarantee the security and confidentiality of e-mail communication.

- The patient is responsible for informing the physician of any types of information the patient does not want to be sent by e-mail. Such information that the patient does not want communicated over e-mail includes:

---

**The patient can add to or modify this list at any time by notifying the physician in writing.**

***The physician is not responsible for information loss due to technical failures associated with the patient's email software or internet service provider.***

### ***Patient acknowledgment and agreement***

I acknowledge that I have read and fully understand this consent form. I understand the risks associated with the communication of e-mail between the physician and me, and consent to the conditions outlined herein, as well as any other instructions that the physician may impose to communicate with patients by e-mail. I acknowledge the physician's right to, upon the provision of written notice; withdraw the option of communicating through e-mail. Any questions I may have had were answered.

## MD WELLNESS APPOINTMENT CANCELLATION, CHANGE AND “NO-SHOW” POLICY

At MD Wellness, we strive to provide excellent patient care and customer service. To that end, appointments are all scheduled in advance, and are lengthy enough (thirty minutes to two and half hours) to provide sufficient time to get to the root cause of your problems. Also, we do NOT overbook our schedule (unlike most other doctor’s offices) at MD Wellness and therefore waiting times are usually nonexistent or very short (rarely more than 15 minutes)

Dr. Rothman’s services are in very high demand, and his schedule is filling up weeks in advance. Many people are seeking his care to help them solve their chronic health related issues.

Unfortunately, we are experiencing a large amount of “no-shows”, “last minute” cancellations and changes to our schedule. Apparently, a substantial percentage of patients are making appointments only to change their plans at the last moment.

The Doctor’s time is scarce and valuable and when you make an appointment with him, this time is reserved just for you. These last-minute changes are very problematic, creating large “holes” in our schedule while simultaneously depriving other patients the chance to see Dr. Rothman.

We are therefore announcing a new policy at MD Wellness to help mitigate against these scheduling problems;

**New patients will pay a 25% deposit for their visit at the time they make their initial appointment. Any changes for a new patient must be made at least three MD Wellness regular business days prior to your scheduled appointment. MD Wellness regular business hours are Monday / Wednesday 9:00 AM – 2:00 PM, Friday 9:00 AM – 5:00 PM, Thursday 9:00 AM – 6:00 PM and Tuesday from 9:00 AM – 7:00 PM. Cancellations or changes made less than 3 regular business days prior to your appointment will result in a forfeiting of your security deposit. Follow up patients will be also be subject to a 25% cancellation fee unless notice is given 3 regular MD Wellness business days prior to your appointment.**

**Patients that are chronic offenders of our cancellation policy will be required to pay the full cost of their visits in advance.**

At MD Wellness, we understand that true emergencies arise that require last minute changes to your schedule. In case of a true emergency, we request that you provide some sort of evidence to substantiate your emergency. True emergencies will not be subject to the aforementioned fees.

Our services are very scarce and valuable. We strive to treat every person with great care, compassion and respect. We expect our patients to reciprocate by treating us the same way.

I \_\_\_\_\_ fully understand and agree with the MD Wellness cancellation and rescheduling policy
